IMPORTANT INFORMATION

BE RESPECTFUL: Kiwiburn is held on private land. Please respect our hosts and their beautiful farm! Drive carefully to the Gate at 5km/h, following the signs. Please respect any boundary tape we have put in place – it is there to protect your safety. Don't cross the river or climb the cliffs! If you are found outside festival grounds, you may be evicted from the event.

BLACK SHEEP RANGERS: (Formerly Paddock Relief). Volunteers in bright green t-shirts who help ensure the safety of the site and participants. If you see a concerning situation, alert your nearest Ranger or go to their headquarters: the purple building at the back of the lower paddock.

BURN NIGHTS: We have two separate burns: The Effigy on Saturday night and The Temple on Sunday night! Keep an eye on the Depot white board for potential other art installation burns. You **MUST** have prior approval to burn your installation!

CARS: No cruising! The Kiwiburn site is designed for pedestrians and bicycles. No cars, motorcycles, ATV's, golf carts or go-carts are allowed to drive in our town or the surrounding area except for registered art and safety vehicles. (Visit The Depot to register a vehicle).

COMMERCE: You can not buy or sell anything. Kiwiburn is a place of sharing and free exchange within a gift economy. The only exception to this is the purchase of ice (see below).

THE DEPOT: The Depot is our on-site information and volunteer hub. Wanna buy some ice? Depot. Wanna sign up for a volunteer shift? Depot. Lost wallet, keys or phone? Depot. Need to contact the Site Manager? Depot. General questions? Depot. Come write your event on our blackboard and enjoy the view from the front yard. Open 10am–5pm daily.

EMERGENCIES: Medics are on duty 24 hours a day. They are situated near the Depot and are equipped with radios, as are Black Sheep Rangers. There is always Site Manager on duty and Security at night, easily identifiable in hi-viz vests.

FIRE BAN: There are to be **NO** open fires outside the organised burns on Saturday/Sunday except those pre-registered with the Ops team. Gas cookers are ok. Fire spinning is ok in the fire spinning areas.

GATE: Opening times for Gate are:
Wednesday: 9am – midnight
Thursday: 8am – 10pm
Friday: 8am – 10pm
Saturday: 9am – 8pm
Sunday: 9am – midday

A security firm will be at the Gate outside of these hours. They are here to help so please be courteous and nice!

GREY WATER: Most camps need to dispose of grey water during Kiwiburn. Grey water is produced from cooking, dish washing, and hair and body washing. Grey water can be dumped anywhere on the Paddock, we only ask that you consider where people walk before you create puddles. Do **NOT** wash your dishes in the swimming hole!

ICE: The only thing we sell at Kiwiburn is ICE! Ice will be for sale at The Depot during daytime hours (10am–5pm). Please try to have exact change (\$5/bag).

IN/OUT: Once on site, we want you to stay there! However, if you **need** to leave, you'll pay \$20 per vehicle for the privilege of doing so. Cash only.

LOST AND FOUND: Small valuables like phones, wallets and car keys can be brought to The Depot. Clothes and other items are your responsibility. Lost your Llama jumper? Where did you last see it?

MEDIA: We continue to get a lot of publicity thanks to our Media Team so we expect to have some media personnel on site. They will be easily identifiable; wearing a Media Pass, and walking around with a Kiwiburn Liaison.

MOOP (Matter-Out-Of-Place): Our community respects the environment. We are committed to leaving no physical trace of our activities wherever we gather. If you see MOOP, pick it up. You are responsible for ensuring your campsite is clean before you leave. Please do not leave food scraps.

MPW: The Ministry of Public Works team works tirelessly before, during, and post-festival to create the infrastructure

needed for the festival. The MPW are a crazy bunch (you gotta be to do that work) so if you see them working in the hot sun, we're sure they'd appreciate a cold drink or beer!

PADDOCK UNLIMITED RENEWABLE ENERGY CO-OPERATIVE (PURE-C): The Home for Wayward Girls and Boys is offering 12volt batteries and a solar charging service to anybody who wants to make use of them. See Captain Lumos for more info. Greeters and Town Hall will be running off of PURE-C!

RUBBISH: Remember: Kiwiburn is a Leave No Trace Event. Pack it In, Pack it Out. We aim to leave the site cleaner than we found it. **TAKE YOUR RUBBISH HOME!** Do not empty rubbish or put anything other than human waste in the portable toilets. You are responsible for the condition of your campsite and nearby public areas of Kiwiburn. Clean up as you go!

Paddock Unlimited Renewable Energy Co-op (PURE-C) *Low voltage is sexy.* We are PURE-C (Paddock Unlimited Renewable Energy Co-operative). We are a collection of keen solar power enthusiasts who have been providing Solar power on the Paddock for several years. We provide solar systems that provide much of the LED lighting found around the Paddock. Think about minimizing your power requirements, think about using 12 volts instead of 240 volts, it is safer and better for us and the environment. Think about upgrading to LED lighting systems. If you have questions about solar power we are happy to help. If you have 12 volt power requirements for an art project then talk to us as we may be able to provide you with freshly charged batteries to make it happen.

T-3 *The Robots are coming.* Mad Max and Maxine return with their Bubble blowing Quad bike from 2016 to once again tour the Paddock Wastelands, this time around they have brought re-enforcements in terms of both

manpower and fire power. A small trailer has been attached to the existing Bubblebeast containing T-3, a man sized robot that will aid them in their battle for The Paddock. Wastelands, T-3 is fitted with tracks rather than wheels, to enable it go almost anywhere, this armour plated robot is no friendly R2D2 unit, it was originally designed for extreme combat in the battlefield and then successfully tested for urban pacification, it is armed with a flame thrower, water cannon, bubble machine and lights for night work

The flaming tea cup *Art car.* The flaming tea cup is back for a third instalment. You know us by now; bring your cups, a photographic driver's license and a smile

Slackline City *Slacklining installation.* Slackline City features a net and slackline for playing high in the trees for maximum thrills with minimum spills. Come push your abilities on a safe set up – we may have harnesses for use under supervision at times.

The Tyranny of Expectation *Disappointment.* The ongoing interplay between siting and displacement provides an affective dimension to interrogate the dialogical ambiguity of promise and narrative. The conflicts that inhere between the contemporary language of desire with the Platonism of traditional gender strictions reveal a human-scale experiential and performative geography that figures performance as stasis and void, through an inner sanctum reflective of estrangement, fragmentation, and betrayal. The failed narrative of progress that hovers indeterminately between specialisation and ambiguity puts forward an elegiacal demand for utility and irrelevance.

Rainforest flower of fire *Fire and metal* This piece has something to give in both day and night. The metal structure will be shaped in form of a tropical rainforest flower; blossoms that are known for their almost unbelievable size. At night the center of the bloom will be the host of a sinuous fire tornado. And when not actively in operation, it's a warm fire pit to hang out at.

VLK – Infinite Reflection *Kaleidoscope?* Come and see how robots might see the world, with colours reflecting on infinitely in a giant kaleidoscope

Welcome home *Participation, inclusion, and self expression.* This project is aimed at all Kiwiburners, particularly the virgin and the travelling. Created by fully converted second time burners who know what it's like to feel both lost and at home at an overwhelmingly wild first burn. It is an interactive and community based platform for connection which burners are encouraged to approach and contribute or merely appreciate. To share connections and inspire the perspective that there's more like-minded people around than you think. Perhaps just down the street from you! So explore and engage, with the hope that the people you meet don't have to be left on the Paddock when you leave.

The Speakeasy *Art / sound.* Two house speakers and a tonne of LEDS playing electrowing, house music and a few crazy analog synth sets on a battery backed, solar powered setup.

Two Moons Temple – Women's Space *Women of Kiwiburn Space.* Two Moons Temple aims to be a community safe-space for the Women-identified folk of Kiwiburn, inclusive of all non-male/non-binary/trans/femme-identifying people. Our key mission will be to help support and celebrate the wahine identifying folk of Kiwiburn in a way that only a women-driven space can. It will be a co-created area which provides a forum for community-building, support and space holding. Our main duties are to be a women-folk's forum, to increase visibility of consent culture, provide harassment assistance and support, and basically be an all-round place for general chill out and play.

The Giant Weta *Wetapunga.* The Giant Weta is a 2016 Black Rock City Honoraria project from New Zealand which will bring a large steel weta to Burning Man, Kiwiburn and beyond. Older than some dinosaurs, the endangered Giant Weta is here to rock your world. Not known for it's beauty, the world's heaviest insect is heading to the Playa this year as an art project led by Auckland Burners.

The Turret *Technology.* Standing proud over the Paddock the Turret protects Kiwiburn from boredom and heat. with a 10m range the turret provides cooling with its watergun and is interactive, be the first one to the turret to gain control of the power.

The Wanderwave Fountain *Kinetic art, water, high-tech.* Long ago, fountains were controlled by underground rooms of humans turning on valves, lights, and motors. Eventually that process was electrified and later, made electronic. With the debut of the Wanderwave, robots have come for our fountains, and they bring their superior understanding of time. Experience the terrifying beauty as machines control these subwoofers, strobe lights, microcontrollers and water pumps in a way that humans could never dream of. Note: Not recommended for those who suffer PSE under flashing lights.

BirdieMcbirdface *Robotbirds.* BirdieMcbirdface is a talented creature who broke out of the circus in late 2085 in the distant future (when we are all robots). Travelling into the past to 2017 for a one time only show. See him balance and show his bright colours in the night. You may have to ask/yell at him before he will show you. If that fails, play him some music, and he will show you his display.

So Beautiful *interactive electronic dance stage.* An interactive environment created with video projectors, cameras, computers etc to produce a live image of the dancer in many colourful and original virtual environments. We celebrate the beauty of the dancers and clothe them in wonderful colours and natural textures all made fresh and now on the Paddock for our delight! We can also extract and print colour pictures for you to take home. 'So beautiful' is part of the feminine revolution and is based on the the modern reimagining of the female form and spirit. We invite burners to dance and be expressive on our stage. Although we request that dancers dance nude; so we can clothe them with light, it is not demanded and nor do they have to be female. Being nude is a long-standing choice in the international burn community and this is a good chance for self expression which is unique to the burn environment. This live art making is interactive so we invite your input. cLoud 9 is produced by professional artists and the art created is to an excellent standard and imagery created is carefully guarded and not released without permission.

GLOWBOT WARS *Large scale Glow in the Dark Robot Chess.* In the war between light and dark the only balance is The Board. Two Glowbot armies stand ready to sacrifice themselves in tribute to the Kiwiburn Effigy. In pursuit of victory, they will be battling throughout the day and night until the King is captured and only one army remains. Honed by the fires of Kiwiburn, leaders for these automaton warriors must rise-up to strategise a way across the checkered field of battle. Tacticians, make ready your plans... Commanders, steady your hands... Always remember that in all darkness lives light... and in light, shadows fall. For Honor... For Glory... For The Board!

Chapel in the Glade *Temple services in the forest.* In the hectic whirlwind of the burn, we know it can be hard to see everything, to do everything. Sometimes visiting the Temple gets missed in the madness. Never fear, happy sinners, we are the Chapel in the Glade! Write down your wishes, your confessions, your hopes and your sins, and the monks of the chapel will relieve you of your burdens. Come unto the Chapel of the Glade to receive the blessing of our secular monks, and add to the beauty of our shrine tree.

Pepperland *Theme: Family Friendly.* Welcome to Pepperland, the land of love, games, alternative science and Beatles appreciation club. In the morning, join our Wide Game (like Capture the Flag) and play games with us. In the afternoon explore and play in the natural spaces with Science 'til Sunset. meditate. This natural window allows you to see differently and will take your mind away for a moment or longer.

Paddock Radio *Rebel Communication Outpost.* Bring your transistor radios down to the burn and tune in to Paddock Radio – Broadcasting Live on 88.1 FM. Look out for our communication outpost and swing by for a chat, fight the robots, and keep hope alive. If you're receiving this transmission, you are the Resistance

Free market revolving washing line *Free stuff.* We are bringing back the revolving washing line/free market so here's a call out to pack up your unwanted clothing and other useful things. Bring your ugly Christmas jumpers and unwanted blankets. Bring us all that stuff that was part of your OLD look or raid your grandma's chuck outs and grab everything that really should be worn at Kiwiburn. Come and join our experiment in passive gifting for the 6th year in a row. Bring what you no longer need (as long as it's clean). Take whatever you want (this is not about swapping). If you want to add a stall of some kind to the market you are most welcome!

Shadows *Interactive light and sound sculpture.* Shadows” is an interactive light and sound sculpture. An equilateral triangle (2.5m sides) is suspended, point down. The edges of the triangle are illuminated with high-density, addressable LEDs. Each corner of the triangle contains an ultrasound range finder, allowing triangulation of an object (i.e. a participant's arm) within the triangle's plane. Light and sound are responsive to the participant's location and movements, animating the sculpture.

The camp also offers shelter, shade space and our very own camp trampoline as well as access to Divine Costume Hire (where an interesting outfit can be hired for the very affordable price of two hugs for the day). Sleeping Beauties + Playful Pixies

We will attempt to create a quiet sleeping space for families and those that appreciate sleep before midnight! A place for parents to sit, chat, and watch the fun on the field, whilst also keeping an eye on their sleeping children. Working on getting our own, child friendly porta loo (some fundraising will probably be required for this). Meet other parents who are crazy/cool enough to bring their kids to the burn. No intoxicated people please in this camp and we would appreciate adults being partially clothed. We do not babysit your kids. Want to join this camp – www.facebook.com/groups/SleepingBeautiesAndPlayfulPixies

Things loud, base heavy and groovy. Things intoxicating and palatable. Things pastel and paisley. Things esoteric and un-understandable. Things thought provoking and weird, wild and whimsical, spontaneous and unsupervised. Things bigger, better, bolder and brighter. We return to you, our brothers and sisters of the Paddock with a bright vision for Paddock life in 2017.... So buckle up, let your hair down, dance dance dance, get spanked, get weird, laugh with your belly and Fall Inn with us this Burn.
